

MANYU
INTERNATIONAL

A close-up, high-angle photograph of a sewing machine's needle and foot assembly. The needle is positioned vertically, and the foot is at the bottom, resting on a piece of fabric. The background is a soft, out-of-focus white, creating a clean and professional aesthetic.

MANYU International is a fast thriving garment manufacturing Company from India, striving to improve continuously and consistently providing our best service to our clients and thereby manufacturing and delivering all the products with moral uprightness.

Mission

We are committed to build a sustainable future in the garment industry, maintaining competitive prices and high quality as well. Our production units adhere to international norms regarding quality, layout and worker facilities. We stand by ethical work practices and do not employ child labor. We use recyclable packaging for supporting a greener, pollution-free eco friendly environment.

Our Company Culture

“Together, we grow.” We believe that humans are the most precious resource, and hence we create a great working environment for each employee, This is a testament to our loyal staffs who does work hard for each quality garment that is made.

Each employee, no matter what their job is, gets an opportunity to be heard and to contribute their best capacity. At the end of the day, we believe a good company values both the customer and the employee impartially.
